

**3<sup>rd</sup> International Conference on  
Mountain Environment and Development  
( 1<sup>st</sup> Circular )**

The Institute of Mountain Hazards and Environment (IMHE), Chinese Academy of Sciences, successfully organized the 1<sup>st</sup> and 2<sup>nd</sup> International Conference on Mountain Environment and Development (ICMED) held in 2002 and 2012 in Chengdu, China. IMHE is now organizing the 3<sup>rd</sup> ICMED to be alongside with the 33rd International Geographical Congress of IGU on August 21-25, 2016 in Beijing, China. This conference will provide an opportunity to enhance the academic exchanges on mountain environment and development, discuss the future of mountain research.

**Time:** August 21-25, 2016

**Avenue:** Beijing, China

**Theme:** Future Mountain development

**Main topic:**

- (1) Mountain security – disaster mitigation and prevention
- (2) Mountain ecology- service function
- (3) Mountain environment- harmony between human and nature
- (4) Mountain development - livelihood and settlement
- (5) Climate change – impact, adaptation, countermeasure
- (6) Theory and techniques of mountain research (observation, experiment, remote sensing, modeling and scenario analysis)
